

Quantity Limits Drug List

Taking too much medicine or using it too often isn't safe. And it may even drive up your health care costs. That's why this program limits the amount of medicine that's covered by your plan for a certain length of time. For example, a drug may have a limit of 30 pills per 30 days. If you refill a prescription too soon or your doctor prescribes an amount that's higher than usual, your pharmacist will tell you.

Use this table to see if one of your medications has a quantity limit.

Find your type of drug in the columns on the left. Then look for the name of your drug. We update this drug list on a regular basis, but you can always find the most current information, such as details and covered quantity limits when you log in at anthem.com.

CATEGORY	DRUG NAME
Analgesic, Anti-inflammatory or Antipyretic	Abstral
Chemical Dependency, Agents to Treat	acamprosate calcium
Analgesic, Anti-inflammatory or Antipyretic	acetaminophen w/codeine
Gastrointestinal Therapy Agents	Aciphex
Gastrointestinal Therapy Agents	Aciphex Sprinkle
Analgesic, Anti-inflammatory or Antipyretic	Actemra
Analgesic, Anti-inflammatory or Antipyretic	Actiq
Central Nervous System Agents	Active-Pac
Endocrine	Actonel
Endocrine	Actoplus Met
