

Voluntary Benefits are available!

Open Enrollment November 11th - 22nd

*Benefit elections will need to be made during Open Enrollment . You will be mailed a statement regarding your current policies with Aflac. Please review for accuracy. If you do not receive a statement and believe you have a policy, please reach out to your local HR representative.

Voluntary benefits can help protect your assets so a serious life event does not cause financial hardship. You can choose the benefits that are suited to you and your family and pay the premiums through convenient payroll deduction. The cash benefits you receive from these plans can be used for medical bills or in any way you choose.

Accident Insurance	Provides a cash benefit paid directly to you for a variety of medical treatments caused by a covered accident. The plan pays benefits for: emergency room visits, x-rays, broken bones, knee cartilage surgery, burns, lacerations and more.
Critical Illness Insurance	Provides you with a lump sum cash benefit if you or your covered dependents are diagnosed with a critical illness such as heart attack, stroke, or cancer.
Hospital Indemnity Insurance	Provides coverage for hospital stays of over 24 hours. The plan pays a cash benefit for hospital admission, daily hospital confinement and daily confinement in intensive care.
Short Term Disability	Pays you a percentage of your gross monthly salary if you are unable to work due to a covered injury or illness. Monthly benefit amounts are based on your current gross income.

Please note that all of these plans are portable, meaning that if you leave the company, you can keep your policies by setting up payment arrangements with Aflac directly.
