

## Voluntary Benefits are available!

Benefit elections can only be made as a New Hire or during Open Enrollment .

Voluntary benefits can help protect your assets so a serious life event does not cause financial hardship. You can choose the benefits that are suited to you and your family and pay the premiums through convenient payroll deduction. The cash benefits you receive from these plans can be used for medical bills or in any way you choose.

<b>Accident Insurance</b>	Provides a cash benefit paid directly to you for a variety of medical treatments caused by a covered accident. The plan pays benefits for: emergency room visits, x-rays, broken bones, knee cartilage surgery, burns, lacerations and more.
<b>Critical Illness Insurance</b>	Provides you with a lump sum cash benefit if you or your covered dependents are diagnosed with a critical illness such as heart attack, stroke, or cancer.
<b>Hospital Indemnity Insurance</b>	Provides coverage for hospital stays of over 24 hours. The plan pays a cash benefit for hospital admission, daily hospital confinement and daily confinement in intensive care.
<b>Short Term Disability</b>	Pays you a percentage of your gross monthly salary if you are unable to work due to a covered injury or illness. Monthly benefit amounts are based on your current gross income.

Please note that all of these plans are portable, meaning that if you leave the company, you can keep your policies by setting up payment arrangements with Aflac directly.
